

MAGYAR PISZKE PAPÍR Kft. Quality Policy

The management and all employees of MAGYAR PISZKE PAPÍR Kft. are committed to meeting customer needs, producing high-quality paper products, complying with legal requirements, and minimizing environmental pollution.

Our Fundamental Objectives:

While ensuring the efficient operation of the company, our customers receive high-quality products within a precise, flexible, fast, and courteous service framework.

One of the most important principles of the company:

“The customer is always right”

To this end:

- We ensure regulated and controlled operations, monitor processes, and aim for "Zero Defects" in our activities.
- In our planning and daily work, we strive for safe, accident-free working conditions, economical use of natural resources, and the application of sustainable development principles.
- Considering industry development trends, we continuously improve our technology, aim to implement environmentally friendly manufacturing processes, and take into account the foreseeable environmental impacts of new technologies and equipment. We strive to reduce waste and achieve appropriate quality and environmental performance.
- We hold regular training sessions to develop the quality and environmental awareness of our employees, as quality work is a basic requirement, and everyone is responsible for the work they perform.
- We maintain continuous and active communication with our customers to accurately understand their needs and provide precise and up-to-date information about the quality and ecological benefits of our activities.
- We strive to establish long-term, fair business relationships with our customers, serving our mutual interests and ensuring further market share growth.
- We carefully select our subcontractors, establish quality expectations for their certification and control, and prefer certified companies in their selection.
- By analyzing key performance indicators (KPIs), we continuously monitor the most important metrics, analyze their changes, and use them for corrections.

To achieve the above goals, we operate a quality management system that meets the requirements of the MSZ EN ISO 9001:2015 standard, which we continuously monitor and improve.

We are convinced that the consistent application of these principles, honesty, and openness with those living in our environment and with authorities, are crucial for the long-term development and survival of our business.
